A global business

Over 100 years of history to become a reference company worldwide

Roca began its activity as a company that made cast iron radiators for domestic heating at its factory in Gavà, near Barcelona. After these first radiators, the firm expanded its portfolio with the production of boilers. In 1929, Roca entered the bathroom space by starting the production of baths.

In the 90s the Group developed a first step of international expansion, mainly based on setting up commercial branches and signing agreements with local leading brands. Besides Portugal and France, Roca's presence started to spread over the United Kingdom, Germany, Italy, Russia, Morocco, Argentina, Brazil and China.

In 2005 Roca announces an ambitious strategic plan focused on bathroom spaces, achieving the world leadership of the sector in 2006.

Today, Roca is a global brand with presence in more than 170 markets, supplied by its 78 production plants and over 22.000 employees worldwide.
